Exhibit A
Revision No. 5
Kirtland Air Force Base
Interagency Agreement No., 87-SLC-0029

EXHIBIT A REVISION NO. 5

POINTS OF DELIVERY, VOLTAGES, AND DELIVERY OBLIGATIONS

1. This Exhibit A is made this 4th day of October, 2004, to be effective October 1, 2004, under and as part of Interagency Agreement No. 87-SLC-0029, dated April 3, 1989, hereinafter called the "Agreement," terminates and supersedes Exhibit A, Revision No. 4, dated June 6, 2000, and shall remain in effect until superseded by another Exhibit A in accordance with the provisions of the Agreement; Provided, That this Exhibit A or any superseding Exhibit A shall be terminated by the expiration of the Agreement.
 - 1.1 In the superseded Exhibit A, Western and the Contractor agreed that, effective on October 1, 2004, the Contractor's Seasonal Contract Rate of Delivery (CROD) and Seasonal Sustainable Hydro Power (SHP) shall be the Contractor's proportional share of 93 percent (93%) of the Seasonal CROD and Seasonal SHP available each Winter and Summer Season from October 1, 2004, through September 30, 2024. The remaining 7 percent (7%) of the available resource was used to create the Post-2004 Power Pool for new customers.
 - 1.2 In the superseded Exhibit A, Western and the Contractor also agreed that Western would, prior to October 1, 2004, solely determine the marketable CROD and SHP Energy available from the Salt Lake City Integrated Projects (SLCA/IP).
Western's determination was published in the Federal Register (69 FR 29135).
The determination reduces the amount of SLCA/IP marketable energy that will be

available beginning October 1, 2004, due to a significant reduction in forecasted electrical generation from the SLCA/IP brought on by drought conditions in the Upper Colorado River Basin. The impact of the determination and resulting reductions are also reflected in this Exhibit, in addition to the reductions referred to in Section 1.1.

2. Point(s) of Delivery and Voltages: SLCA/IP firm energy and capacity will be delivered pursuant to the Agreement at the point(s) of delivery and voltages listed below.

<u>Point(s) of Delivery</u>	<u>Nominal Voltage</u>
Kirtland	115-kV/46-kV

3. Contract Rate of Delivery, Sustainable Hydro Power, Available Hydro Power, and Monthly Capacity:

- 3.1 Except as modified by Section 5.1.4 and/or 5.1.6 of the Agreement, and pursuant to Section 5.1.1 of the Agreement, the Seasonal CROD shall be as follows:

Winter Season	3,341 kW
Summer Season	3,306 kW

- 3.2 SLCA/IP Monthly Capacity, in kilowatts, will be delivered pursuant to the Agreement in the quantities listed in the Attachment to Exhibit A, Monthly Capacity, and Energy Table below. Capacity available to the Contractor from hydropower shall be the greater of SHP or AHP. Total Monthly Capacity shall be the sum of: (1) the greater of SHP or AHP; and (2) WRP and/or CDP. Capacity

may not be transferred from month to month without revision to the Attachment to this Exhibit A.

4. Seasonal SHP Energy and Monthly SHP Energy:

4.1 Except as modified by Section 5.1.4 and/or Section 5.1.6 of the Agreement, and pursuant to Section 5.1.2 of the Agreement, the Seasonal SHP Energy entitlements, by fiscal year, shall be as follows:

Fiscal Year	Winter Season Energy (kWh)	Summer Season Energy (kWh)
FY 2005	6,385,236	6,415,975
FY 2006	6,522,288	6,553,687
FY 2007	6,659,341	6,691,399
FY 2008	6,796,393	6,829,111
FY 2009 – FY 2024	6,933,445	6,966,823

4.2 SLCA/IP firm energy, in kilowatt hours, will be delivered pursuant to the Agreement in the quantities listed in the Attachment to Exhibit A, Monthly Capacity, and Energy Table below, at the monthly energy amount applicable to that billing period. Energy may not be transferred from month to month without revision to the Attachment to this Exhibit A.

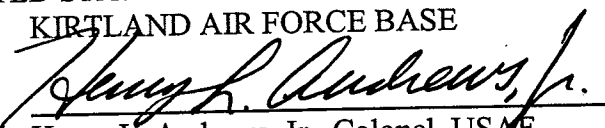

5. Attachment to Exhibit A, Monthly Capacity, and Energy Table (Attachment): The attachment may be revised from time to time by mutual agreement of the Parties as evidenced by signed concurrence to the revision.

IN WITNESS WHEREOF, the Parties hereto have caused this Exhibit A to be duly executed the
day and year first above written
